

(Video 8) Exceeding The valid range of data type.

(for good good) of error numbers

2 - code - try to print these numbers.

max value 255
my error 0-7 repeat

32bit (Unsigned)

negative minimum value

touch error error

positive max value

error positive max

0000	-0
0001	-1
0010	-2
0011	-3
0100	-4
0101	-5
0110	-6
0111	-7
1000	8-?

Range 0-7

value for 8 is not possible

negative min value

error error error error

But 3bit so can't represent 8, instead it will get 000 which is 0. So, the list starts from zero.
